

We're building a better way for you to manage your money online

Better visibility, better control, better decision-making

At Hastings City Bank we are always striving to improve our services for you. That's why we're redesigning your Online Banking home page and Account History page, to give you more comprehensive access to your accounts, transactions and financial tools — all in one location.

In the coming weeks, when you log in to Hastings City Bank Online Banking you'll be able to:

- Review all of your accounts, balances, and recent transactions in one place.
- Transfer funds between accounts in seconds – with the Make A Transfer button.
- Pay bills on time with ease, with reminders and the ability to set up recurring payments.
- View transaction information on a new Account History page that's even easier to use.

For more information and a demo of the new Home Page, please visit our website www.hastingscitybank.com and refer to the Online Banking Home Page Upgrade link.

Thank you for choosing Hastings City Bank.
